With quite a good improvement in the receipts here and ample supplies, with lower prices elsewhere, higher at \$5.3034.63 the market very naturally opened with buyers bidding unevenly lower prices. There was a very fair inquiry, however, from all 14.7566.50.

lished soon. It developed that most transactions were 5c lower than yesterday, while few sales were probably 10c lower, and, a few exceptional cases, there was very little change compared with yesterday. As usual, after the more important orders had been executed the market lost some of its life, but the early arrivals all sold at opening prices. For a few loads that came in after the market was practically over buy-ers bid lower prices, and probably succeeded in getting a slight reduction compared with morning prices. A good clearance was finally made, but the market closed quiet. Sales ranged from \$5.85 to \$6.60, and a large percentage of the supply sold above \$6.

Sheep-Receipts, 350; shipments, 200. The receipts to-day of sheep and lambs were a little larger than a week ago and not quite as large as year ago. There was little or no change in the market, but, if any different, values were a shade stronger including to-day's transfer to San Franthan yesterday, quality being considered. Both shippers and local butchers were in the market, and while orders were not urgent the demand was equal to the supply and a good clearance was made in season at current prices. Spring lambs sold as high as \$10, others at \$606.40, and sheep at the subtreasury for redemption. This sold at \$3@4.75. Quotations:

CALL LOANS AT THE HIGHEST POINT

OF THE YEAR.

More Gold Transferred to San Fran-

cisco-Redemption of Boads-

Movements of Prices.

NEW YORK, March 14.-There were

some remarkable movements among the

obscure specialties, but the important rep-

resentative specialties were neglected

and practically immovable. Some impor-

tant developments in the money market

situation helped the stock market to face

with equanimity the forecast of a move-

ment of currency of the week, which, on

its face, promised to wipe out entirely the

slender surplus reserves of the banks. The

the highest of the year, indicated the pres-

sure on the money supplies. An announce-

ment during the morning of an additional

deposit of half a million of dollars at the

subtreasury for transfer to San Francisco

drains reported. Altogether the banks were

shown to be losers to the extent of upwards

of \$6,000,000 since the last bank statement,

cisco. Last week's bank statement, it will

be remembered, showed surplus reserves of

only \$3,958,425. During the day there came

very heavy offerings of government bonds

was the direct result of the withdrawal of

the government's offer to redeem bonds

after to-morrow. The total redemption to-

day ran up to \$2,479,554, and as the pay-

ments are in cash they will show for one

day's average in to-morrow's bank state-

ment. Consideration was also given to the

fact that a Standard Oil dividend of \$20 a

share is payable to-morrow, involving the

disbursement of \$20,000,000, which can hardly

also led to renewed borrowing in foreign

crease, compared with last February,

\$10,877,968, notwithstanding an increase in

value of cotton exports of \$2,354,279. The

statement of grain exports for the past

week shows a continuance of these condi-

tions, the outgo of wheat falling to below

3,000,000 bu and the corn exports showing

only nominal figures compared with the

corresponding week of last year. Repay-

ment of foreign obligations by gold ex-

ports is only to be avoided, therefore, by

falling back on foreign credits. Of other

developments, the settlement of the Boston

strike was favorably interpreted, although

some uneasiness still prevails concerning

the settlement of the yearly terms with

the anthracite miners. The increase in the

Southern Railway preferred dividend had

been expected with great confidence, but

the stock of that company advanced on

the announcement, which also served to

check a selling movement in the general

list. There were some very sharp relapses

among minor stocks which have been re-

were in notable demand at striking gains.
